

# SGC06 SERIES CLAW GRAPPLES

HP REQUIRED  
40 HP & Below

HITCH  
Universal Quick-Attach

MATERIAL HANDLING

## Add versatility to your Compact Tractor.

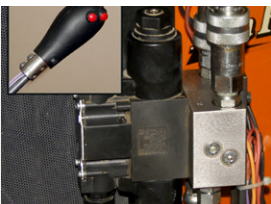

The SGC06 will move brush, rocks and debris, making chores a breeze. Just like our popular SGC05 Series, this grapple allows you to easily grasp, lift, and move a variety of materials greatly reducing the time spent on property maintenance. The tines are manufactured from high-tensile AR400 Steel making it light-weight, yet extremely durable. For additional strength, the frame is made of stout 2" x 3" rectangular tubing. The hinge points feature 3/4" greaseable pins. Land Pride also has 3rd Function Valve Kits for a variety of Kubota tractor/loader combinations. Add versatility to your tractor by completing the package with a 3rd Function Kit.

	SGC0660
<b>Horsepower</b>	40 HP & Below
<b>Mount</b>	Universal Quick-Attach Kubota B Mount, or Blank*
